Intellectual disability and mental health	
Clinical Psychology and People with Intellectual Disabilities, 2 nd Edition. Edited by Eric Emerson, Chris Hatton, Kate Dickson, Rupa Gone, Jo Bromley, & Amanda Caine. John Wiley & Sons (2012)	http://au.wiley.com/WileyCDA/WileyTitle/productCd-0470029714.html This book is a comprehensive resource presenting current evidence-based practices and relevant clinical skills for working with people with intellectual disability. The book is beneficial for mental health professionals and allied health staff including psychologists, psychiatrists, nurses and social workers.
Cognitive-Behaviour Therapy for People with Learning Disabilities. Edited by Biza Stenfort Kroese, Dave Dagnan, & Konstantinos Loumidis. Psychology Press (1997)	https://www.amazon.com/Cognitive-Behaviour-Therapy-People-Learning-Disabilities/dp/0415127513 Cognitive-Behaviour Therapy for People with Learning Disabilities explores theoretical and practical issues surrounding the application of cognitive therapy to people with intellectual disability. It provides a wealth of practical examples for training and is a valuable resource for clinical psychologists, psychiatrists and all researchers and practitioners who see people with intellectual disability.
Management Guidelines: Developmental Disability, Version 3, 2012. Therapeutic Guidelines Limited (2012)	https://tgldcdp.tg.org.au/fulltext/quicklinks/management_guideline.pdf These guidelines aim to support medical practitioners in caring for people with developmental disability. It covers a broad range of stages – from birth to old age and assessment to long-term management. The guidelines have also been written to be accessible for people who are not professional health care workers.
Management of Mental Disorders, 5 th Edition. Gavin Andrews, Kimberlie Dean, Margo Genderson, Caroline Hunt, Philip Mitchell, Perminder Sachdev, & Julian Trollor (2013)	https://www.amazon.com.au/Management-Mental-Disorders-Gavin-Andrews/dp/1490463011 This book provides practical guidance on recognising and treating mental disorders. <i>Chapter 7: Neurodevelopmental Disorders</i> contains information on intellectual disability. The book also includes resource materials such as outcome measures, worksheets and information pamphlets for individuals with mental disorders and their families.
Mental Health of Children and Adolescents with Intellectual and Developmental Disabilities: A Framework for Professional Practice. Edited by David Dossetor, Donna White, & Lesley Whatson. IP Communications Pty Ltd (2011)	https://www.ipcommunications.com.au/title_mentalhealthchildadol.html A framework for clinicians who work with young people with intellectual and developmental disabilities and mental ill health. It provides useful information on how this population's complex developmental, emotional, and behavioural needs might best be addressed. It also includes a model for how interdisciplinary and multi-service collaboration and coordination might be facilitated, and information on the integration of biological, developmental, family, educational, social and cultural factors.
Mental Health Services for Adults with Intellectual Disability: Strategies and Solutions. Edited by Nick Bouras & Geraldine Holt. Psychology Press (2010)	https://www.amazon.com.au/Mental-Health-Services-Intellectual-Disability/dp/1848720408 This book considers how mental health services have evolved over the past three decades to meet the needs of people with an intellectual disability. It focuses on the ways that theories and policies have been applied to clinical practice.
Psychiatric and Behavioural Disorders in Intellectual and Developmental Disabilities, 3 rd Edition. Edited by Colin Hemmings & Nick Bouras. Cambridge University Press (2007)	https://www.cambridge.org/ar/academic/subjects/medicine/mental-health-psychiatry-and-clinical-psychology/psychiatric-and-behavioral-disorders-intellectual-and-developmental-disabilities-3rd-edition?format=PB Drawing on clinical experience and research findings, an international and multidisciplinary team of experts brings together useful information on mental health and behavioural problems of people with intellectual and developmental disabilities. The book highlights the principles behind clinical practice for assessment, management and services, and offers practical advice for psychiatrists, psychologists, nurses, therapists, social workers, managers and service providers.
The Psychiatry of Intellectual Disability. Edited by Ashok Roy, Meera Roy, & David Clarke. Radcliffe Publishing (2006)	https://www.taylorfrancis.com/books/9781315378909 A practical manual with guidelines for assessment and multidisciplinary approaches.
